

Health and Safety Policy Statement 2017

Environmental Handling Systems Ltd Jan 17

EHS-23 – V1 – 07/17

1. Statement of Intent

Environmental Handling Systems Ltd is committed to providing a safe and healthy working environment for its employees and other service providers who work or visit the organisation's premises.

As well as ensuring that all that is reasonable and practicable is done to prevent personal injury and to comply with the duties laid upon the organisation as employer under the Health and Safety at Work Act 1974 and any accompanying regulations.

2. Objectives

Environmental Handling Systems Ltd will ensure that management and staff are aware of and accept their individual and collective responsibilities in the care of health and safety of themselves and others.

All members of management and staff are expected to co-operate in the carrying out of this policy and Environmental Handling Systems Ltd will encourage full participation of all employees in matters concerning health and safety within the organisation.

Environmental Handling Systems Ltd will identify and eliminate or control any situations likely to be hazardous to health and safety or cause injury/damage to persons or equipment.

Environmental Handling Systems Ltd is responsible for providing the necessary resources for the implementation of health and safety legislation and the objectives identified in this policy.

Environmental Handling Systems Ltd also recognises the right of non-smokers to breathe smoke free air and is conscious of its responsibilities to provide a clean health and safe working environment.

Environmental Handling Systems Ltd are a leading distributor of high quality, CE Certified, specialised

evacuation chairs and equipment. Our products are designed to aid mobility impaired

people who require assistance when evacuating a building. We provide solutions for

businesses and organisations that need to be compliant with current Health and Safety

Legislation and the Equalities Act

3.Responsibility for Health and Safety

Directors

The overall responsibility for the implementation of this policy in health and safety matters rests with the directors of Environmental Handling Systems Ltd, who will be required to do all that is reasonably practicable to meet the health and safety standards laid down in this policy, and in legislation to implement and carry out the policy and its aims set out in this document.

The directors will identify any necessary preventative and protective measures and prioritise the actions necessary to comply with the relevant legislation and ensure that all staff are aware of the procedures relating to accident or sickness.

Staff

Whilst the duty to ensure compliance with Health and Safety matters remains with the directors, staff are expected to take care of Health and Safety for themselves, fellow employees and visitors. All members of staff are expected to observe all hazards and accidents, which should be reported immediately to the training manager.

Every member of staff must acquaint themselves with the rules governing Health and

Safety

- Report any faulty or hazardous fixtures, fittings, furniture or equipment.
- Do not attempt to repair faulty equipment.
- Switch off all electrical equipment before leaving the premises.
- Report all accidents.

Environmental Handling Systems Ltd Jan 17

EHS-23 – V1 – 07/17

and in addition, ensure the following:

- Keep all emergency exits, corridors free of obstructions.
- Observe all rules and procedures relating to evacuation of the building during an emergency.
- Ensure that the kitchen areas and washrooms are kept clean and tidy.

4. Arrangements

Environmental Handling Systems Ltd is a low risk organisation being office based. Whilst other activities are undertaken these are managed to minimise the risk.

Training

Environmental Handling Systems Ltd will identify safety training as dictated by the business. Environmental Handling Systems Ltd will arrange:

- General awareness via staff training.
- Computer safety – staff will be informed in the safe use of computers via the display screen equipment assessment process.
- Fire – the regular fire drills serve as suitable means for training for the purposes of safe evacuation.
- Manual Handling
- Specific role training.

5.Risk Assessments
